Product Designer | UX & Interaction Design

Master's student in Human Technology Interaction with **four years** of professional experience in **design**. I have worked across digital and B2B projects, collaborating with different teams to understand problems, communicate ideas, and create clear and engaging experiences. My studies have helped me move further into **UX** and **interaction design**, with a growing focus on understanding users and improving how people interact with technology. I am now looking to apply this combination of professional experience and UX knowledge to a product design role.

WORK EXPERIENCE

Autify Network • Bengaluru, India

03/2025 - 05/2025

Senior Graphic Designer

- Spearheaded the visual design for social media, resulting in a 43% increase in user engagement and 27% growth in audience reach within a month
- Boosted email campaign performance by 30% within 3 months through strategic collaboration with content strategists, optimizing design and messaging.
- Led a team of 4 to execute the brand identity overhaul for Newzchain, a sub-brand of Autify Network, resulting in a 67% increase in content interactions post-relaunch.
- Established comprehensive brand guidelines that streamlined design workflows, reducing turnaround time by 20% and ensuring visual consistency across channels.

Zensciences Business Solutions • Bengaluru, India

11/2023 - 10/2024

Graphic Designer

- Delivered over 50+ branding assets, including white papers, posters, and digital designs, leading to a 24% increase in client engagement for key B2B clients like Infosys, Bosch, Wipro within 9 months
- Managed multiple projects in a detail-oriented, deadline-driven environment which led to an increase of 17% in revenue
- Visualized complex data reports into consumable and engaging assets
- Led coordination amongst copywriters, marketers, and developers to ensure impactful visual communication
- Worked across 7 - 9 number of assets at any given time with a 98% track record of timely delivery

Cryptic • Bengaluru, India

05/2022 - 09/2023

Creative Visualiser

- Created over 100 visual assets for diverse print and digital platforms, driving a substantial increase in client satisfaction scores by 30%, reflecting enhanced brand engagement and customer loyalty
- Led 12+ photoshoots, and implemented innovative lighting and setup techniques for creative outputs within the stipulated time frame
- Brainstormed and designed visuals for integrated marketing campaigns that aligned with client goals

- Designed innovative graphics tailored to campaign goals, leading to a measurable increase in social media shares by 1,200 interactions within three months; findings helped fix the top causes of low conversion rates
- Reviewed and refined designs based on performance metrics to improve engagement and ROI

Nutty Yogi (Nirvaanic Life Foods Pvt Ltd) • Bengaluru, India

07/2021 - 03/2022

Creative Designer

- Successfully launched 5+ social media campaigns, resulting in a 40% growth in follower base within six months
- Enhanced product visibility through a redesigned packaging strategy, resulting in a 38% boost in customer engagement within 6 months
- Boosted website product imagery conversion rates by 50% through optimized photography and editing
- Designed an application to oversee and optimize website functionality, resulting in increased sales within 6 months

EDUCATION

Master of Science in Human-Technology Interaction

Tampere University • Tampere, Finland

08/2025 - 08/2027

Bachelor of Engineering in Electronics And Communication

Saveetha University • Chennai, India

09/2015 - 05/2019

PROJECTS

MyTown - Supporting International Students in Tampere

Led a research-driven UX project investigating the settlement challenges faced by international students in Tampere. Collaborated with a multidisciplinary team to develop interview scripts and research questions, conducted thematic analysis of qualitative interview data, and synthesized findings to define core user needs and pain points. Translated these insights into actionable user journeys and innovative service concepts to improve the student integration experience.

CityLoop - Context-Aware Urban Discovery

Designed an end-to-end customer journey for a city discovery app to reduce decision fatigue. Analyzed user behaviour, mapped experience touchpoints, and structured flows to improve clarity, trust, and confidence in user decisions and developed an accessible interface informed by WCAG principles.

Talos - Conversational AI for Sensitive Health Pre-Screening

Investigated how conversational AI could support disclosure of sensitive health information through a literature review covering patient disclosure, trust, conversational behaviour. Synthesized research findings into interaction principles around transparency, user autonomy, uncertainty, and non-diagnostic AI behaviour. Contributed to conversation flows, interaction patterns, prompt refinement, and the final mobile prototype.
